### **Session 3: Net zero in universities**

Sustainability was a key topic at the IARU Presidents' Meeting 2022 in Cambridge and this session is intended to develop this theme, in particular by examining the ways in which universities can work towards net zero.

ETH Zürich will lead this session and has set itself the goal of reducing its greenhouse gas emissions to net zero by 2030. ETH will outline its plans and strategies for achieving this target before the discussion is widened for other IARU members to ask questions and share the views from their own institutions.
